SHRI MUNINDRA KUMAR

DIRECTOR GENERAL, CHAMBER OF COMMERCE AND INDUSTRIES OF INDIA

MESSAGE

The media and broadcasting sector serves as a powerful pillar of democracy, public awareness, cultural preservation, and national development. In an era driven by digital transformation and rapidly evolving communication technologies, the Ministry of Information and Broadcasting plays a vital role in promoting credible information dissemination, strengthening India's creative economy, encouraging innovation in media, and showcasing the country's cultural and developmental achievements to the world.

The Chamber of Commerce and Industries of India (CCI India) recognizes the growing significance of the media, entertainment, broadcasting, and digital content industries in fostering economic growth, employment generation, innovation, and global engagement. Through policy advocacy, industry collaboration, investment facilitation, technology partnerships, startup promotion, and capacity-building initiatives, CCI India remains committed to supporting the Ministry's vision of developing a vibrant, responsible, and globally competitive media ecosystem.

This Knowledge Paper provides comprehensive insights into the Ministry's strategic priorities, policy framework, digital media landscape, broadcasting reforms, investment opportunities, and emerging trends shaping India's information and creative sectors. It explores collaborative opportunities across digital broadcasting, animation, visual effects, gaming, film production, content creation, community media, public communication, and media technology.

The publication serves as a valuable resource for policymakers, media organizations, broadcasters, content creators, investors, entrepreneurs, academic institutions, technology providers, and development organizations seeking to contribute to India's expanding media ecosystem. Through knowledge sharing and strategic collaboration, it aims to promote innovation, strengthen institutional capabilities, encourage investments, and support sustainable sectoral growth.

Munindra Kumar
Director General
CCI India

PREFACE

India's information and broadcasting ecosystem stands at a pivotal inflection point. As the nation accelerates its journey toward Viksit Bharat 2047, the Ministry of Information and Broadcasting (MIB) occupies a uniquely strategic position simultaneously serving as the custodian of India's media sovereignty, the architect of its digital transformation, and a critical vehicle for communicating the developmental aspirations of 1.4 billion citizens. No other ministry interfaces with the Indian public as directly, pervasively, or influentially as the MIB, making its institutional effectiveness a matter of national strategic importance.

This Knowledge Paper has been commissioned and developed by CCI India Chamber of Commerce and Industry as a Government-Grade Strategic Advisory Document intended to articulate the structural transformation underway within the MIB ecosystem, identify critical execution and ecosystem gaps, and present a comprehensive framework through which CCI India can serve as a trusted strategic partner to the Ministry in delivering tangible developmental outcomes.

The paper is analytical in orientation, drawing upon publicly available data, policy documents, budget allocations, parliamentary standing committee reports, NITI Aayog strategy papers, and sectoral intelligence. It is not a promotional document it is a strategic instrument designed to inform policy dialogue, catalyse institutional collaboration, and align private sector capabilities with national public policy priorities.

CCI India envisions itself not merely as a trade body, but as a national institution that bridges the aspirations of Indian industry with the mandates of the Indian state. In the context of the MIB, CCI India seeks to serve as an industry facilitator, policy advocate, investment mobiliser, innovation enabler, capacity builder, and knowledge partner contributing to the Ministry's mission of fostering a free, fair, and technologically advanced information ecosystem in India.

This Knowledge Paper is designed for submission to Union Ministers, Secretaries to the Government of India, NITI Aayog Leadership, Senior IAS/IFS Officers, Industry Leaders, Institutional Investors, Development Finance Institutions, and International Multilateral Agencies. It is publication-ready and meets the professional standards expected of advisory outputs produced by leading global consulting firms and national policy think-tanks.

About CCI India

CCI India (The Chamber of Commerce and Industry of India) is a premier national business chamber dedicated to fostering economic growth, industry development, entrepreneurship, innovation, and investment promotion across India. As the voice of Indian business and industry, CCI India serves as a bridge between government, industry, startups, academia, investors, and civil society, facilitating meaningful collaboration for nation-building and sustainable development.

Through policy advocacy, business facilitation, research, stakeholder engagement, capacity building, and strategic partnerships, CCI India works to create an enabling environment for enterprises of all sizes. The Chamber actively supports key national initiatives such as Startup India, Make in India, Digital India, Atmanirbhar Bharat, Skill India, and Viksit Bharat 2047 by connecting innovative enterprises with government opportunities and promoting inclusive economic development.

CCI India operates through sector-specific councils, industry forums, knowledge platforms, and state-level engagements that address emerging opportunities and challenges across sectors including manufacturing, agriculture, technology, healthcare, education, infrastructure, sustainability, MSMEs, and startups. The Chamber regularly organizes policy dialogues, investment summits, business delegations, workshops, conferences, and knowledge-sharing initiatives to strengthen India's economic ecosystem.

With a strong commitment to innovation, entrepreneurship, and public-private collaboration, CCI India strives to empower enterprises, facilitate investment, enhance competitiveness, and contribute to India's journey toward becoming a globally competitive and economically resilient nation. Its role as a knowledge partner and industry catalyst enables ministries, departments, state governments, startups, and businesses to collaborate effectively in achieving national development objectives.

SECTION 1: INTRODUCTION TO THE MINISTRY OF INFORMATION AND BROADCASTING

1.1 Institutional Mandate and Governance Role

The Ministry of Information and Broadcasting (MIB) is a Union Ministry of the Government of India, operating under the Executive branch and deriving its authority from the Seventh Schedule of the Constitution of India specifically Entries 31 (Posts and telegraphs), 32 (Railways), and related provisions in the Union and Concurrent Lists that vest the Centre with plenary powers over broadcasting, press regulation, and information dissemination. The MIB's mandate, as defined under the Government of India (Allocation of Business) Rules, 1961, encompasses the regulation and development of broadcasting services, the administration of the Press Council of India, certification of films, management of public broadcasting infrastructure, and the formulation of policies governing the information ecosystem of India.

Beyond its constitutional and statutory responsibilities, the MIB performs a critical soft-power function. It is the primary institutional mechanism through which the Government of India communicates with its citizens informing them of welfare schemes, policy priorities, national security imperatives, and developmental achievements. Through Doordarshan, All India Radio (AIR), and the Directorate of Advertising and Visual Publicity (DAVP), the Ministry maintains the largest public broadcasting network in the world in terms of geographic reach.

1.2 Constitutional Relevance and Legal Framework

The MIB exercises authority under several foundational legislative instruments. The Cable Television Networks (Regulation) Act, 1995 governs cable TV distribution. The Prasar Bharati (Broadcasting Corporation of India) Act, 1990 established the statutory autonomy of India's public broadcaster. The Cinematograph Act, 1952 (amended in 2023) empowers the Central Board of Film Certification (CBFC). The Press Council Act, 1978 establishes the Press Council of India as a quasi-judicial body for press standards. The Press and Registration of Periodicals Act, 2023 a landmark reform digitised the registration of newspapers and periodicals, replacing the colonial-era Press and Registration of Books Act, 1867.

The emergence of digital media has prompted the MIB to extend its regulatory perimeter through the Information Technology (Intermediary Guidelines and Digital Media Ethics Code) Rules, 2021 (IT Rules 2021), which for the first time brought OTT platforms and digital news publishers under a structured regulatory framework in India. These rules were notified under powers conferred by the IT Act, 2000, but administered by the MIB signifying a significant expansion of the Ministry's mandate into the digital domain.
