SHRI MUNINDRA KUMAR

DIRECTOR GENERAL, CHAMBER OF COMMERCE AND INDUSTRIES OF INDIA

MESSAGE

India's progress is driven by the collective efforts of its states and union territories, each contributing uniquely to the nation's economic, industrial, social, and technological development. As the country moves towards becoming a developed economy, stronger collaboration between government institutions, industry, academia, investors, and development stakeholders has become essential for achieving sustainable and inclusive growth.

The Chamber of Commerce and Industry of India (CCI India) remains committed to strengthening this collaborative ecosystem by promoting investment, entrepreneurship, innovation, industry partnerships, skill development, and economic advancement across the country. Through its various initiatives, CCI India continues to facilitate meaningful engagement between public and private stakeholders, creating opportunities that contribute to regional and national development.

This Knowledge Paper has been prepared to provide insights into key government departments, development priorities, emerging opportunities, policy landscapes, and potential areas of collaboration. It highlights how strategic partnerships, technology adoption, private sector participation, and innovative approaches can accelerate growth, improve service delivery, and enhance the overall development ecosystem.

The publication is intended to serve as a valuable reference for policymakers, government officials, industry leaders, investors, entrepreneurs, academic institutions, and development organisations. By fostering informed dialogue and encouraging collaborative action, it aims to support initiatives that generate investment, create employment, strengthen institutions, and drive long-term socio-economic progress.

As India continues its journey towards greater prosperity and global competitiveness, the role of effective partnerships and knowledge-sharing will remain increasingly important. It is our hope that this publication contributes meaningfully to that vision and serves as a catalyst for impactful collaboration and sustainable development.

Munindra Kumar
Director General
CCI India

Preface

The **CCI Chandigarh Knowledge Papers on Government Departments** have been prepared as a strategic knowledge resource to foster stronger collaboration between government, industry, academia, and investors while showcasing Chandigarh's unique strengths as one of India's most planned, progressive, and innovation-driven Union Territories. This publication reflects the Chamber of Commerce and Industries (CCI)'s commitment to promoting informed policymaking, sustainable economic development, and public-private partnerships that contribute to the city's long-term growth and competitiveness.

Chandigarh occupies a distinctive position as the administrative capital of two states and a nationally recognised model of urban planning, governance, and quality of life. Its robust institutional ecosystem, thriving service economy, growing technology sector, healthcare excellence, educational infrastructure, and commitment to sustainability make it an attractive destination for investment and innovation. Recognising these strengths, this compendium presents a comprehensive overview of key government departments, outlining their mandates, economic significance, policy initiatives, technological advancements, investment opportunities, and strategic priorities.

Each knowledge paper is designed to serve as both a reference document and a practical roadmap for policymakers, entrepreneurs, investors, researchers, and development partners. Through structured analysis, SWOT assessments, and sector-specific recommendations, the publication highlights opportunities for enhancing governance efficiency, encouraging private sector participation, and accelerating inclusive economic growth. Equally important, it identifies meaningful avenues through which CCI can contribute by facilitating policy advocacy, industry-government collaboration, investment promotion, capacity building, research, and international partnerships.

As Chandigarh continues its journey toward becoming a smarter, greener, and more globally competitive city, the integration of public vision with private enterprise will be essential to unlocking its full potential. These knowledge papers aim to support that vision by providing evidence-based insights that encourage dialogue, inspire innovation, and strengthen cooperation among all stakeholders.

We extend our sincere appreciation to the government departments, domain experts, industry representatives, and contributors whose knowledge and perspectives have enriched this publication. Their collective efforts have made this resource a valuable platform for understanding Chandigarh's governance ecosystem and identifying pathways for sustainable development and economic prosperity.
