SHRI MUNINDRA KUMAR

DIRECTOR GENERAL, CHAMBER OF COMMERCE AND INDUSTRIES OF INDIA

MESSAGE

India's progress is driven by the collective efforts of its states and union territories, each contributing uniquely to the nation's economic, industrial, social, and technological development. As the country moves towards becoming a developed economy, stronger collaboration between government institutions, industry, academia, investors, and development stakeholders has become essential for achieving sustainable and inclusive growth.

The Chamber of Commerce and Industry of India (CCI India) remains committed to strengthening this collaborative ecosystem by promoting investment, entrepreneurship, innovation, industry partnerships, skill development, and economic advancement across the country. Through its various initiatives, CCI India continues to facilitate meaningful engagement between public and private stakeholders, creating opportunities that contribute to regional and national development.

This Knowledge Paper has been prepared to provide insights into key government departments, development priorities, emerging opportunities, policy landscapes, and potential areas of collaboration. It highlights how strategic partnerships, technology adoption, private sector participation, and innovative approaches can accelerate growth, improve service delivery, and enhance the overall development ecosystem.

The publication is intended to serve as a valuable reference for policymakers, government officials, industry leaders, investors, entrepreneurs, academic institutions, and development organisations. By fostering informed dialogue and encouraging collaborative action, it aims to support initiatives that generate investment, create employment, strengthen institutions, and drive long-term socio-economic progress.

As India continues its journey towards greater prosperity and global competitiveness, the role of effective partnerships and knowledge-sharing will remain increasingly important. It is our hope that this publication contributes meaningfully to that vision and serves as a catalyst for impactful collaboration and sustainable development.

Munindra Kumar
Director General
CCI India

Preface

The **CCI India Knowledge Papers on the Government of Dadra and Nagar Haveli and Daman and Diu (DNH & DD) Departments** have been prepared as a strategic knowledge resource to strengthen collaboration between government, industry, academia, and investors while showcasing the Union Territory's unique position as one of India's most industrially dynamic and rapidly evolving regions. This publication reflects the Chamber of Commerce and Industry of India (CCI India)'s commitment to promoting informed policymaking, sustainable economic development, and public-private partnerships that contribute to the long-term growth and competitiveness of DNH & DD.

Dadra and Nagar Haveli and Daman and Diu occupy a distinctive place in India's economic landscape with their robust manufacturing ecosystem, strategic proximity to major ports and industrial corridors, thriving tourism destinations, rich tribal heritage, and expanding opportunities in information technology, fisheries, renewable energy, infrastructure, and sustainable development. Recognising these strengths, this compendium presents a comprehensive overview of key government departments, outlining their mandates, economic significance, policy initiatives, technological advancements, investment opportunities, and strategic priorities while emphasising inclusive and future-ready growth.

Each knowledge paper is designed to serve as both a reference document and a practical roadmap for policymakers, entrepreneurs, investors, researchers, and development partners. Through structured analysis, SWOT assessments, and sector-specific recommendations, the publication highlights opportunities for enhancing governance, fostering innovation, encouraging responsible private sector participation, and accelerating economic diversification. Equally important, it identifies meaningful avenues through which CCI India can contribute by facilitating policy advocacy, industry-government collaboration, investment promotion, capacity building, research, and international partnerships.

As DNH & DD continues its journey toward becoming a hub for advanced manufacturing, tourism, digital governance, green energy, and sustainable infrastructure, collaboration between public institutions and private enterprise will be essential to unlocking its full potential. These knowledge papers aim to support that vision by providing evidence-based insights that encourage dialogue, inspire innovation, and strengthen cooperation among all stakeholders.

We extend our sincere appreciation to the government departments, domain experts, industry representatives, and contributors whose knowledge and perspectives have enriched this publication. Their collective efforts have made this resource a valuable platform for understanding the governance ecosystem of Dadra and Nagar Haveli and Daman and Diu and identifying pathways for sustainable development, investment, and inclusive economic prosperity.

About CCI India

CCI India (Chamber of Commerce and Industry of India) is India's premier autonomous business chamber dedicated to policy advocacy, investment facilitation, trade promotion, and business matchmaking. CCI India bridges the gap between government and industry by engaging with policymakers, state governments, and multilateral agencies to create an enabling environment for investment and growth. In the context of Dadra and Nagar Haveli and Daman and Diu, CCI India serves as a strategic partner — helping attract private capital, facilitating joint ventures, enabling skill development, organising industry conclaves, and advocating for sector-specific policy reforms.

CCI India's core services include:

- **Policy Advocacy:** Representing industry interests before central and state governments to shape legislation and regulation in favour of economic growth, investment attraction, and ease of doing business.
- **Investment Facilitation:** Connecting domestic and international investors with state governments, enabling joint ventures, PPPs, and greenfield investments across all sectors.
- **Trade Promotion:** Organising trade missions, B2B meets, and export facilitation programmes connecting Indian producers with global buyers.
- **Business Matchmaking:** Systematically matching companies seeking partners, distributors, or acquisition targets with suitable counterparts.
- **Capacity Building:** Training industry stakeholders, entrepreneurs, and government officials on business management, policy, and global best practices.
- **Research & Knowledge Management:** Publishing sector research, white papers, and investment intelligence to guide business decisions and government policy.

In the context of Dadra and Nagar Haveli and Daman and Diu, CCI India's role is transformative. The state's strategic location, vast natural resources, and tribal heritage present a unique investment canvas that CCI India is committed to showcasing to the world. These Knowledge Papers serve as a sector-by-sector roadmap for CCI India's engagement with each government department of Dadra and Nagar Haveli and Daman and Diu.

1. Department of Industries

Department Overview

- Promotes industrial development across DNH & DD; facilitates investment, issues licenses, supports MSMEs, and drives manufacturing-led economic growth.

Major Branches

- District Industries Centre (DIC): Single-window investment facilitation and MSME support.
- EODB Cell: Ease of doing business, approvals, and regulatory simplification.
- Industrial Estates Management: Silvassa, Khadoli, Daman, and Diu industrial estate operations.
- Startup & MSME Cell: Incubation support, financial linkages, and capacity-building.

Economic Significance

- Manufacturing contributes ~50% of UT's GSDP; DNH hosts 3,000+ registered factories, making it one of India's most industrialised UTs per capita.
- Key sectors: chemicals, plastics, engineering goods, textiles, pharmaceuticals, and food processing.

Trade, Imports and Exports

- Exports: Engineered goods, plastic products, chemicals, and pharmaceuticals primarily to Gulf, Southeast Asia, and Europe.
- Imports: Raw materials, capital machinery, and industrial chemicals for downstream manufacturing.
- DNH & DD's proximity to JNPT and Hazira Port provides a strategic logistics advantage for export competitiveness.

Investment Landscape

- Active PPP in industrial estate development; UT's Industrial Policy 2021 offers capital subsidy, power tariff concessions, and stamp duty exemptions.
- Growing FDI interest in pharmaceuticals and specialty chemicals; single-window clearance via EODB portal operational.
- Future: greenfield investments in electronics manufacturing and food processing projected under PLI alignment.

Policies & Government Initiatives

- Industrial Policy 2021: incentives for new and expansion units including capital subsidy and power cost reimbursement.
- EODB Single Window Portal: time-bound approvals reducing compliance burden for investors.
- PM Vishwakarma, MSME Saathi, and PMEGP schemes operational for artisan and small enterprise support.

Technology & Innovation

- EODB portal integrates 30+ department approvals, enabling digital, paperless investment clearance.
- Industry 4.0 adoption nascent; digital upskilling programs needed for MSME workforce.
- GIS-based industrial land bank mapping being developed for investor transparency.
